 LOGAN  
**together**  
SEPTEMBER 2022

WHAT WE'VE  
HEARD FROM  
OUR COMMUNITY

We respect and acknowledge  
the Traditional Custodians of the Logan City area, including  
the Yuggera and Yugambeh language speaking people.

We pay respect to the Elders past and present for they  
hold the memories, the traditions, the culture and hopes of  
Australia's First Peoples.

We acknowledge there are also other Aboriginal and Torres  
Strait Islander people who live, work in and contribute to the  
cultural heritage of Logan City.

# WELCOME

Logan Together is a community movement committed to the wellbeing of every child in Logan, from 0 to 8 years of age.

We are coming together as a collective of Logan locals, co-designing and implementing ways to see every child in Logan have every opportunity to be the very best they can be.

Our big goal is to see Logan's children happy and healthy for generations to come.

We believe that the only way this can be achieved is to listen to community and work together with the community.

At the end of 2021, and the beginning of 2022, we chatted with community members across Logan to understand what was most important to the Logan community when it came to Logan's children.

This was an initiative called 1000 Voices.

This booklet gives a summary of the key themes that we heard from the first 473 voices. It also shares some quotes about what our community told us was important, where to start and how we might join hands to realise opportunities together for our children.

**THE NEST** is the Australian Research Alliance for Children and Youth (ARACY) wellbeing framework for children and young people aged 0 to 24 years.

The Nest has six 'domains' that create a way of thinking about the whole child in the context of their daily lives. To have the best wellbeing, all six domains must be met. In other words, if every area is supported, we're able to be happy and healthy and 'fly from the nest'.

We have analysed the first 473 voices from Logan against the six Nest domains to understand what areas of focus are most important to our community.

## THE SIX DOMAINS:

**LOVED AND SAFE** – Being valued, loved, and safe means having loving, trusting relationships with family and friends.

**LEARNING** – Children and young people learn through a variety of experiences within the classroom, the home and the community where they live. Their individual learning needs are addressed to allow them to realise their full learning potential.

**MATERIAL BASICS** – Children who have material basics have the things they need. They live in suitable, secure, stable housing, with appropriate clothing, nutritious food, clean water and clean air. They have the material items needed to develop as an active member of society.

**PARTICIPATING** – Participating is about children and young people having a voice, being listened to, and taken seriously within their family and community. It means having a say in decisions that impact them.

**POSITIVE SENSE OF IDENTITY AND CULTURE** – This encompasses having spiritual needs met, a sense of cultural connectedness, belonging and acceptance at home and in the community – and confidence that their identity, culture and community is respected and valued.

**HEALTHY** – Healthy children have their physical, mental, and emotional health needs met. All of their developmental health needs are provided for in a timely way.

## PARENTING

“ Not enough help for young parents, not enough help for people to become good stable people before they become parents”

“ Traumatic childhoods, parents not skilled to be parents, cycles of child abuse and neglect, lack of support for families.”

## LACK OF FAMILY AND COMMUNITY SUPPORT

“ It’s important that they have a strong support system, a solid environment... having a lack of support will increase the chance of not being able to fulfil one’s hopes and dreams...”

## LOVED & SAFE

## CRIME

“ High prevalence of domestic violence”

## DRUGS AND ADDICTION

“ Addiction. There are so many children suffering because their parents are addicted to alcohol, drugs and gambling. I think unless this is addressed at a higher level, we will continue to see the cycle.”

## MATERIAL BASICS

## FINANCIAL PRESSURE

“ Families are doing it hard trying to make the money go around to give your kids everything you want them to have”

## AVAILABLE FUNDING

“ The reputation of Logan City as a rough area with a high crime rate. People not wanting to invest money into the area”

## JOB

“ The poverty cycle becomes so ingrained in people from a young age because it’s often all they know and all they see...”

## HOUSING

“ Unstable housing and no employment”

WHAT GETS IN THE WAY OF ACHIEVING THESE HOPES AND DREAMS?

## SENSE OF CULTURE AND IDENTITY

### STIGMA - REPUTATION

“ I think a lot of it is the stereotypes Logan has. Even working in the city, you say you are from Logan and people instantly look down on it. I think it’s hard for Logan residents to be taken seriously. There is a reputation, and it needs be addressed.”

### INCLUSION

“ The overshadow of other cultures in the community doing great work but not putting First Nations thoughts and ideas into action or priority first...”

WHAT GETS IN THE WAY OF ACHIEVING THESE HOPES AND DREAMS?

### SENSE OF SELF-WORTH

“ Logan residents feeling like they have value, power, and control to shape their lives and community.”

## LEARNING

### QUALITY OF SCHOOLS

“ Poor local catchment schools with no other options. Not enough diversity in the education that is offered and not enough free extracurricular activities”

“ People from low socioeconomic status having less access to better education”

### LACK OF EDUCATION - PARENTS AND YOUTH

“ Lack of education, generational cycles continued (please let’s break the cycles!)”

“ Stigma, access to resources and aspirations being visible (e.g., there’s no university in Logan asides from one hidden away)”

# PARTICIPATING

**LACK OF ACTIVITIES FOR YOUNG PEOPLE** “Not enough funding or programs in our area to encourage their dreams/goals”

## TOO FEW PARKS & GREEN SPACES

“City planning is allowing smaller blocks so children have no backyards and the parks are not safe. Our local park that has water features has no lighting near the BBQs so you can’t enjoy a summer evening with family and friends using the facilities which are always in need of repair or not adequately serviced...”

“Public transport is a nightmare... it is a sad and lonely place if you do not have access to your own transport...”

## LACK OF SOCIAL OPPORTUNITIES

“Building a relationship with neighbours to ensure our kids can play outside with others, provide more opportunities in the community to come together and play”

# HEALTHY

## AWARENESS OF SERVICES

“Environments not reflective of all families and lack of communications around available services...”

## ACCESS TO SERVICES

“There needs to be more support around for families with that 3-5 year bracket as not only are they going through major brain development this is when things like Autism, ADHD, and so on can be picked up... getting into these support programs is near impossible and getting the support required to help the family is just as hard. Many children slip through the cracks.”

## MENTAL HEALTH

“Long wait lists for mental health appointments and the expense of appointments once you can get them”
